MAHANT MUCHANDIKAR

Full-Stack Developer | AI-Integrated Web Applications

mahantmuchandikar@gmail.com | +91-7483430871 | GitHub | LinkedIn

Professional Summary

Final-year BCA student and aspiring Full-Stack Developer specializing in React-based frontend development and Python backend systems. Experienced in building AI-integrated applications, natural-language-to-SQL workflows, and immersive 3D web experiences. Combines software development with 3D asset creation in Blender and creative production using Adobe After Effects.

Technical Skills

Frontend: JavaScript, React, JSX, HTML, CSS, Vite, Tailwind CSS
Backend: Python, FastAPI, REST APIs
Programming Languages: C, Java, C#, PHP, SQL
3D Development: Blender, React Three Fiber, Drei, React Spring
AI Integration: Grok API, LLM API Integration
Tools: Git, GitHub, Vercel, Adobe After Effects

Projects

AI-Powered Text-to-SQL Clarification Engine Live Demo | Source Code
React, Python, FastAPI, SQL, LLM API

- Built a full-stack application that translates natural-language requests into SQL-oriented workflows.
- Implemented ambiguity detection, clarification handling, and SQL compilation to improve query intent and structure.

3D E-Commerce Website Live Demo | Source Code
React, Vite, React Three Fiber, Drei, React Spring, Blender

- Developed an e-commerce website combining shopping functionality with an interactive 3D landing page and animated product visuals.
- Created 3D assets in Blender and integrated them into a React-based web experience; deployed on Vercel.

Self-Learning Agentic AI Prototype Live Demo | Source Code
React, Vite, LLM API

- Developed an AI application exploring agentic interactions and persistent memory across sessions.

macOS-Inspired Desktop Environment In Progress
Frontend Development

- Developing an interactive desktop-style environment inspired by macOS, focusing on interface design and desktop-like user interactions.

Leadership & Achievements

Head of Content Creation *College Event*

- Led content-creation activities and produced digital media using Adobe After Effects.
- Built an event information website to help participants understand event activities and details.
- Won a website-making competition at GCC BCA.

Education

Bachelor of Computer Applications (BCA)
Gogte College of Commerce, Belagavi
Expected Graduation: 2027
